FREELANCE WORK

○ Freelance IoT Developer

- Developed an IoT-based Rain Guard and Emission Tracker System using ESP32.
- Integrated Blynk IoT for real-time monitoring of sewage and gas levels.
- Implemented LED indicators, buzzer alerts, and a servo-controlled valve for automated emergency response.

EDUCATION

○ Trichy Engineering College, Trichy

Bachelor of Engineering in CSE | 2024 - 2027 (Present)

Government Polytechnic College, Perambalur

Diploma in CSE | 2021 - 2024 (**OVERALL 86 %**)

Thanthai Roever Matriculation School, Perambalur

10th | 2020 - 2021

PROJECT

○ Faculty E-attendance Management System

Developed a Faculty E-Attendance Management System utilizing IoT automates attendance tracking in educational settings. Smart sensors authenticate faculty and record student attendance in real-time, optimizing accuracy and efficiency for superior academic management.

INTERNSHIP

○ BSNL (Bharat Sanchar Nigam Limited), Trichy

Duration | 2022 - 2023

I was part of BSNL's team during my internship. I used hands-on skills in telecom, managed networks, and deployed technology. I contributed to important projects, worked with industry experts, and gained valuable skills for a successful career in the changing telecom sector.

AWARDS

○ LATEX course at IIT BOMBAY

I am completed IIT BOMBAY LATEX course in online.

CSC certified in DCA

I am completed Diploma in Computer Application (DCA) course at CSC.
